Physical Activity

The following questions are about exercise, recreation, or physical activities other than your child's school activities.

C1. During the past month, did your child participate in any physical activities or exercises such as running, aerobics, bicycling, swimming, wheelchair basketball, or walking for exercise?

- No
 Yes

We are interested in three types of physical activity: vigorous, moderate, and light.

- Vigorous activities cause large increases in breathing or heart rate.
- Moderate activities cause small increases in breathing or heart rate.
- Light activities cause no increase in breathing or heart rate.

C2. Now thinking about the vigorous physical activities your child does in a usual week, does your child do vigorous activities for at least 10 minutes at a time, such as running, aerobics, wheelchair basketball, heavy yard work, or anything else that causes large increases in breathing or heart rate?

No → **Go to Question C3.**

Yes ↓

C2a. How many days per week does your child do these vigorous activities for at least 10 minutes at a time?

days per week

C2b. On days when your child does vigorous activities for at least 10 minutes at a time, how much total time per day does your child spend doing these activities?

minutes per day

C3. Now thinking about moderate physical activities your child does in a usual week, does your child do moderate activities for at least 10 minutes at a time, such as brisk walking, bicycling, gardening, manual operation of a wheelchair, or anything else that causes small increases in breathing or heart rate?
